I get it now, I understand

It's my demand, I got the plan, I am the man  
Don't need a hand, don't want a fan

I see it clear, I see the view, I know it's true  
Got nothing left, got none to prove  
I make the move, I understand  
Don't need the praise, don't need to prove what I can do

I understand  
I get it now, I understand  
I understand  
I get it now, I understand

Working overtime for that 9 to 5, seven days a week  
Something wasn't right, but you know I'll be fine  
Take a break, look up at the sky  
Late nights all alone, I was chasing signs  
Paid the price learning to survive

El vato del valle está presente  
Ofreciendo todo lo que quieren  
Saquen las botellas pa' que se queden  
Esto es algo nuevo, diferente  
Bailando cumbia la gente  
Grito ritmo pa' que se siente

I didn't want a girl, but Joyce didn't give me another choice  
And you, where you at? Why ain't you with me, Sydney?  
And what's up, Heidi? I hope you're good and you still like me  
And Nat, I still want a chance

Understand, we can take it back  
Understand, we can take it back  
Understand, we can take it back

(Repeat Chorus)

Something wasn't right  
I understand  
Look up at the sky  
I get it now, I understand

I was chasing signs  
Something wasn't right  
Look up at the sky  
I was chasing signs

This ain't a dream, not make believe  
I am the thing, I am the scene  
I write the lines these actors speak, they wait on me  
From legislation down to the streets

Can you see?  
But can you see?  
Can you see?
